

Sheep Relaxin ELISA Kit | RLN elisa kit

Sheep Relaxin ELISA Kit

CATALOG #
AAA93443

REACTIVITY
Sheep

PRODUCT SYNONYMS

Relaxin; Sheep Relaxin ELISA Kit; RLN elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Quantitative Competitive
Sensitivity	1.0 pg/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for RLN elisa kit

Intended Uses: This RLN ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep RLN. This ELISA kit for research use only!

Principle of the Assay: RLN ELISA kit applies the competitive enzyme immunoassay technique utilizing a polyclonal anti-RLN antibody and an RLN-HRP conjugate. The assay sample and buffer are incubated together with RLN-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the RLN concentration since RLN from samples and RLN-HRP conjugate compete for the anti-RLN antibody binding site. Since the number of sites is limited, as more sites are occupied by RLN from the sample, fewer sites are left to bind RLN-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The RLN concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	490056
NCBI GeneID	6013
Molecular Weight	13,011 Da
NCBI Official Full Name	relaxin
NCBI Official Synonym Full Names	relaxin 1
NCBI Official Symbol	RLN1
NCBI Official Synonym Symbols	H1; H1RLX; RLXH1; bA12D24.3.1; bA12D24.3.2
NCBI Protein Information	prorelaxin H1; preprorelaxin H1
UniProt Protein Name	Prorelaxin H1
UniProt Gene Name	RLN1
UniProt Entry Name	REL1_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
