

Chicken Immunosuppressive Acidic Protein ELISA Kit | IAP elisa kit

Chicken Immunosuppressive Acidic Protein ELISA Kit

CATALOG #
AAA93553

REACTIVITY
Chicken

PRODUCT SYNONYMS

Immunosuppressive Acidic Protein; Chicken Immunosuppressive Acidic Protein ELISA Kit; IAP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Intended Uses	This IAP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken IAP. This ELISA kit for research use only, not for therapeutic applications
!Intended Uses	This IAP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken IAP. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for IAP elisa kit

Principle of the Assay: IAP ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-IAP antibody and an IAP-HRP conjugate. The assay sample and buffer are incubated together with IAP-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the IAP concentration since IAP from samples and IAP-HRP conjugate compete for the anti-IAP antibody binding site. Since the number of sites is limited, as more sites are occupied by IAP from the sample, fewer sites are left to bind IAP-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The IAP concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	33622285
NCBI GeneID	1725101
NCBI Accession #	NP_891932.1
NCBI GenBank Nucleotide #	NC_005068.1
Molecular Weight	25,829 Da
NCBI Official Full Name	iap
NCBI Official Symbol	ClgVgp085
NCBI Protein Information	orf85; iap
UniProt Protein Name	Iap
UniProt Entry Name	Q7T5K8_GVCL

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
