

## Monkey Elastase-1 ELISA Kit | ELA1 elisa kit

Monkey Elastase-1 ELISA Kit

CATALOG #  
**AAA93792**

REACTIVITY  
**Monkey**

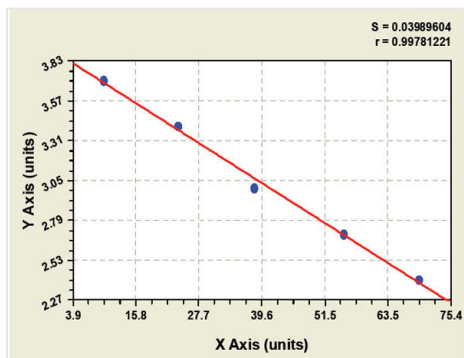

### PRODUCT SYNONYMS

Elastase-1; Monkey Elastase-1 ELISA Kit; ELA1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                            |
|-------------------------|----------------------------------------------------------------------------|
| Reactivity              | Monkey                                                                     |
| Samples                 | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type              | Competitive                                                                |
| Detection Range         | 1.0-25ng/mL                                                                |
| Sensitivity             | 0.1ng/mL                                                                   |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                        |

### NCBI AND UNIPROT INFORMATION

|                         |                                            |
|-------------------------|--------------------------------------------|
| NCBI GI #               | 1942                                       |
| UniProt Accession #     | P00772; Q29625                             |
| Molecular Weight        | 28,821 Da                                  |
| NCBI Official Full Name | elastase 1                                 |
| UniProt Protein Name    | Chymotrypsin-like elastase family member 1 |

|                            |           |
|----------------------------|-----------|
| UniProt Gene Name          | CELA1     |
| UniProt Synonym Gene Names | ELA1      |
| UniProt Entry Name         | CELA1_PIG |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
