

Bovine B cell differentiation factor ELISA Kit | BCDE elisa kit

Bovine B cell differentiation factor ELISA Kit

CATALOG #
AAA93841

REACTIVITY
Bovine

PRODUCT SYNONYMS

B cell differentiation factor; Bovine B cell differentiation factor ELISA Kit; BCDE elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Bovine
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 pg/mL.
Intended Uses	This BCDE ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Bovine BCDE. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for BCDE elisa kit

Principle of the Assay: BCDE ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-BCDE antibody and an BCDE-HRP conjugate. The assay sample and buffer are incubated together with BCDE-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the BCDE concentration since BCDE from samples and BCDE-HRP conjugate compete for the anti-BCDE antibody binding site. Since the number of sites is limited, as more sites are occupied by BCDE from the sample, fewer sites are left to bind BCDE-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The BCDE concentration in each sample is interpolated from this standard curve.

Cell Biology

NCBI AND UNIPROT INFORMATION

NCBI GI #	29393
NCBI GeneID	3567
UniProt Accession #	P05113; Q13840
Molecular Weight	15,238 Da
NCBI Official Full Name	B cell differentiation factor I
NCBI Official Synonym Full Names	interleukin 5
NCBI Official Symbol	IL5
NCBI Official Synonym Symbols	EDF; TRF; IL-5
NCBI Protein Information	interleukin-5; T-cell replacing factor; B-cell differentiation factor I; eosinophil differentiation factor; colony-stimulating factor, eosinophil
UniProt Protein Name	Interleukin-5
UniProt Gene Name	IL5
UniProt Synonym Gene Names	IL-5; TRF
UniProt Entry Name	IL5_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
