

Chicken Soluble Retinoid X Receptor ELISA Kit | RXR elisa kit

Chicken Soluble Retinoid X Receptor ELISA Kit

CATALOG #
AAA94226

REACTIVITY
Chicken

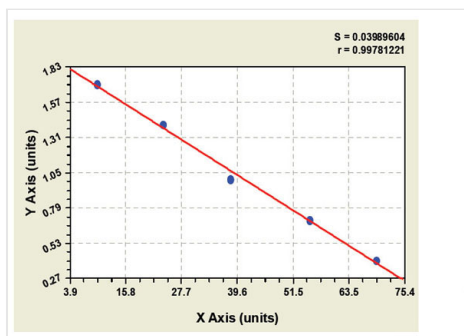

PRODUCT SYNONYMS

Soluble Retinoid X Receptor; Chicken Soluble Retinoid X Receptor ELISA Kit; RXR elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Intended Uses	This RXR ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken RXR. This ELISA kit for research use only, not for therapeutic applications
Intended Uses	This RXR ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken RXR. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for RXR elisa kit

Principle of the Assay: RXR ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-RXR antibody and an RXR-HRP conjugate. The assay sample and buffer are incubated together with RXR-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the RXR concentration since RXR from samples and RXR-HRP conjugate compete for the anti-RXR antibody binding site. Since the number of sites is limited, as more sites are occupied by RXR from the sample, fewer sites are left to bind RXR-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The RXR concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	6007621
Molecular Weight	43,617 Da
NCBI Official Full Name	RXR
UniProt Protein Name	RXR
UniProt Gene Name	RXR
UniProt Entry Name	Q9U7D9_LOCM1

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
