

## Chicken Alternative Splicing Factor ELISA Kit | ASF elisa kit

Chicken Alternative Splicing Factor ELISA Kit

CATALOG #  
**AAA94307**

REACTIVITY  
**Chicken**

### PRODUCT SYNONYMS

Alternative Splicing Factor; Chicken Alternative Splicing Factor ELISA Kit; ASF elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                        |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Chicken                                                                                                                                                                                |
| Samples                 | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate                                                                                                             |
| Sensitivity             | 1.0 pg/mL.                                                                                                                                                                             |
| Intended Uses           | This ASF ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken ASF. This ELISA kit for research use only, not for therapeutic applications! |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                                                                                                                                    |
