

Mouse T-Box Protein 3 ELISA Kit | TBX3 elisa kit

Mouse T-Box Protein 3 ELISA Kit

CATALOG #
AAA94438

REACTIVITY
Mouse

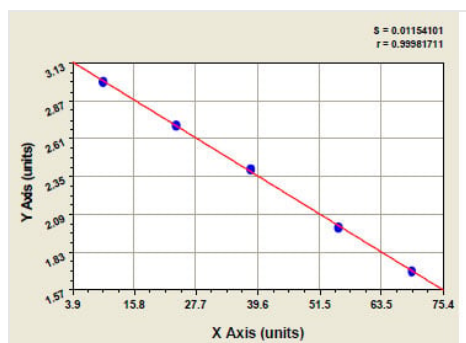

PRODUCT SYNONYMS

T-Box Protein 3; Mouse T-Box Protein 3 ELISA Kit; TBX3 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This TBX3 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse TBX3. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for TBX3 elisa kit

Principle of the assay: TBX3 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-TBX3 antibody and an TBX3-HRP conjugate. The assay sample and buffer are incubated together with TBX3-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the TBX3 concentration since TBX3 from samples and TBX3-HRP conjugate compete for the anti-TBX3 antibody binding site. Since the number of sites is limited, as more sites are occupied by TBX3 from the sample, fewer sites are left to bind TBX3-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The TBX3 concentration in each sample is interpolated from this standard curve.
