

Bovine Anti-Flavoprotein subunit of succinate dehydrogenase ELISA Kit | SDHFP elisa kit

Bovine Anti-Flavoprotein subunit of succinate dehydrogenase ELISA Kit

CATALOG #
AAA94542

REACTIVITY
Bovine

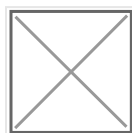

PRODUCT SYNONYMS

Anti-Flavoprotein subunit of succinate dehydrogenase; Bovine Anti-Flavoprotein subunit of succinate dehydrogenase ELISA Kit; SDHFP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Bovine
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL
Intended Uses	This ARPAb ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Bovine ARPAb. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for SDHFP elisa kit

Principle of the assay: ARPAb ELISA kit applies the competitive enzyme immunoassay technique utilizing Ribosomal P Protein antigen and an ARPAb-HRP conjugate. The assay sample and buffer are incubated together with ARPAb-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ARPAb concentration since ARPAb from samples and ARPAb-HRP conjugate compete for the Ribosomal P Protein antigen binding site. Since the number of sites is limited, as more sites are occupied by ARPAb from the sample, fewer sites are left to bind ARPAb-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ARPAb concentration in each sample is interpolated from this standard curve.
