

Monkey Protein Kinase C Theta ELISA Kit | PKCq elisa kit

Monkey Protein Kinase C Theta ELISA Kit

CATALOG #
AAA94648

REACTIVITY
Monkey

PRODUCT SYNONYMS

Protein Kinase C Theta; Monkey Protein Kinase C Theta ELISA Kit; PKCq elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Monkey
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	0.5-10ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This PKCq ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Monkey PKCq. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for PKCq elisa kit

Principle of the assay: PKCq ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-PKCq antibody and an PKCq-HRP conjugate. The assay sample and buffer are incubated together with PKCq-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the PKCq concentration since PKCq from samples and PKCq-HRP conjugate compete for the anti-PKCq antibody binding site. Since the number of sites is limited, as more sites are occupied by PKCq from the sample, fewer sites are left to bind PKCq-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The PKCq concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	5453976
NCBI GeneID	5588
NCBI Accession #	NP_006248.1
NCBI GenBank Nucleotide #	NM_006257.4
Molecular Weight	67,560 Da
NCBI Official Full Name	protein kinase C theta type isoform 1
NCBI Official Synonym Full Names	protein kinase C, theta
NCBI Official Symbol	PRKCQ
NCBI Official Synonym Symbols	PRKCT; nPKC-theta
NCBI Protein Information	protein kinase C theta type
UniProt Protein Name	Protein kinase C theta type
UniProt Gene Name	PRKCQ
UniProt Synonym Gene Names	PRKCT
UniProt Entry Name	KPCT_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
