

Canine Pre-Albumin ELISA Kit | PA elisa kit

Canine Pre-Albumin ELISA Kit

CATALOG #
AAA94893

REACTIVITY
Canine

PRODUCT SYNONYMS

Pre-Albumin; Canine Pre-Albumin ELISA Kit; PA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Canine
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Intended Uses	This PA ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Canine PA. This ELISA kit for research use only, not for therapeutic applications
Intended Uses	This PA ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Canine PA. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for PA elisa kit

Principle of the Assay: PA ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-PA antibody and an PA-HRP conjugate. The assay sample and buffer are incubated together with PA-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the PA concentration since PA from samples and PA-HRP conjugate compete for the anti-PA antibody binding site. Since the number of sites is limited, as more sites are occupied by PA from the sample, fewer sites are left to bind PA-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The PA concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	63748
UniProt Accession #	P19121
Molecular Weight	69,918 Da
NCBI Official Full Name	preproalbumin (serum albumin)
UniProt Protein Name	Serum albumin
UniProt Gene Name	ALB
UniProt Entry Name	ALBU_CHICK

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
