

## Sheep Cysteine ELISA Kit | Cys elisa kit

Sheep Cysteine ELISA Kit

CATALOG #  
**AAA95267**

REACTIVITY  
**Sheep**

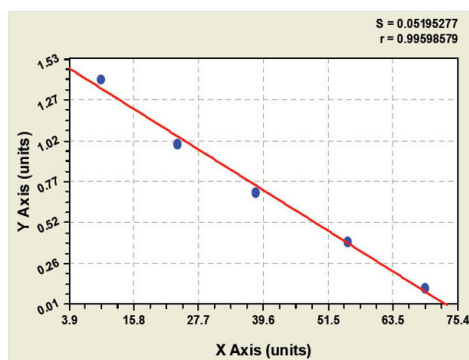

### PRODUCT SYNONYMS

Cysteine; Sheep Cysteine ELISA Kit; Cys elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                      |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Sheep                                                                                                                                                                                |
| Samples                 | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate                                                                                                           |
| Sensitivity             | 0.1 ng/mL.                                                                                                                                                                           |
| Intended Uses           | This Cys ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep Cys. This ELISA kit for research use only, not for therapeutic applications! |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                                                                                                                                  |
