

Sheep Heparin ELISA Kit | Heparin elisa kit

Sheep Heparin ELISA Kit

CATALOG #
AAA95827

REACTIVITY
Sheep

PRODUCT SYNONYMS

Heparin; Sheep Heparin ELISA Kit; Heparin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 u/l
Preparation and Storage	Store all reagents at 2-8 degree C.

Intended Uses: This Heparin ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep Heparin. This ELISA kit for research use only!

Principle of the Assay: Heparin ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-Heparin antibody and an Heparin-HRP conjugate. The assay sample and buffer are incubated together with Heparin-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the Heparin concentration since Heparin from samples and Heparin-HRP conjugate compete for the anti-Heparin antibody binding site. Since the number of sites is limited, as more sites are occupied by Heparin from the sample, fewer sites are left to bind Heparin-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Heparin concentration in each sample is interpolated from this standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
