

Monkey Glutamate receptor 2, Phospho-Ser880 ELISA Kit | GluR2 (Phospho-Ser880 elisa kit

Monkey Glutamate receptor 2, Phospho-Ser880 ELISA Kit

CATALOG # AAA96058	REACTIVITY Monkey
------------------------------	-----------------------------

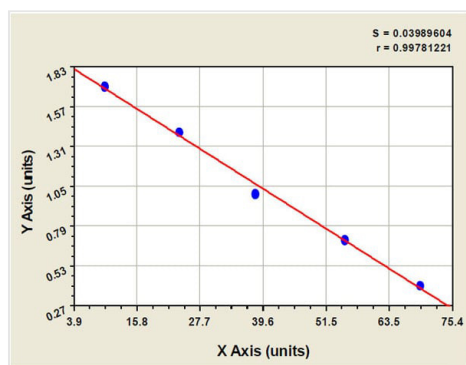

PRODUCT SYNONYMS

Glutamate receptor 2; Phospho-Ser880; Monkey Glutamate receptor 2; Phospho-Ser880 ELISA Kit; GluR2 (Phospho-Ser880 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Monkey
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Related Product Information for GluR2 (Phospho-Ser880 elisa kit

Principle of the assay: GluR2 (Phospho-Ser880) ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-GluR2 (Phospho-Ser880) antibody and an GluR2 (Phospho-Ser880)-HRP conjugate. The assay sample and buffer are incubated together with GluR2 (Phospho-Ser880)-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GluR2 (Phospho-Ser880) concentration since GluR2 (Phospho-Ser880) from samples and GluR2 (Phospho-Ser880)-HRP conjugate compete for the anti-GluR2 (Phospho-Ser880) antibody binding site. Since the number of sites is limited, as more sites are occupied by GluR2 (Phospho-Ser880) from the sample, fewer sites are left to bind GluR2 (Phospho-Ser880)-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GluR2 (Phospho-Ser880) concentration in each sample is interpolated from this standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
