

Rabbit Aminopeptidase ELISA Kit | AMP elisa kit

Rabbit Aminopeptidase ELISA Kit

CATALOG #
AAA96213

REACTIVITY
Rabbit

PRODUCT SYNONYMS

Aminopeptidase; Rabbit Aminopeptidase ELISA Kit; AMP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	2.5-50ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This AMP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rabbit AMP. This ELISA kit for research use only, not for therapeutic applications
!Intended Uses	This AMP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rabbit AMP. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for AMP elisa kit	Principle of the Assay: AMP ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-AMP antibody and an AMP-HRP conjugate. The assay sample and buffer are incubated together with AMP-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the AMP concentration since AMP from samples and AMP-HRP conjugate compete for the anti-AMP antibody binding site. Since the number of sites is limited, as more sites are occupied by AMP from the sample, fewer sites are left to bind AMP-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The AMP concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	494658102
NCBI Accession #	WP_007416046.1
NCBI GenBank Nucleotide #	WP_007416046.1
NCBI Official Full Name	aminopeptidase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
