

Mouse Thyroid Peroxidase ELISA Kit | TPO elisa kit

Mouse Thyroid Peroxidase ELISA Kit

CATALOG #
AAA96237

REACTIVITY
Mouse

PRODUCT SYNONYMS

Thyroid Peroxidase; Mouse Thyroid Peroxidase ELISA Kit; TPO elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Intended Uses	This TPO ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse TPO. This ELISA kit for research use only, not for therapeutic applications
Intended Uses	This TPO ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse TPO. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for TPO elisa kit

Principle of the Assay: TPO ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-TPO antibody and an TPO-HRP conjugate. The assay sample and buffer are incubated together with TPO-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the TPO concentration since TPO from samples and TPO-HRP conjugate compete for the anti-TPO antibody binding site. Since the number of sites is limited, as more sites are occupied by TPO from the sample, fewer sites are left to bind TPO-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The TPO concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	4261820
NCBI Official Full Name	thyroid peroxidase, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
