

Monkey Axis Inhibition Protein ELISA Kit | AXIN elisa kit

Monkey Axis Inhibition Protein ELISA Kit

CATALOG #
AAA96326

REACTIVITY
Monkey

PRODUCT SYNONYMS

Axis Inhibition Protein; Monkey Axis Inhibition Protein ELISA Kit; AXIN elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Monkey
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	1.0-25ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This AXIN ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Monkey AXIN. This ELISA kit for research use only, not for therapeutic applications
!Intended Uses	This AXIN ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Monkey AXIN. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for AXIN elisa kit	Principle of the Assay: AXIN ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-AXIN antibody and an AXIN-HRP conjugate. The assay sample and buffer are incubated together with AXIN-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the AXIN concentration since AXIN from samples and AXIN-HRP conjugate compete for the anti-AXIN antibody binding site. Since the number of sites is limited, as more sites are occupied by AXIN from the sample, fewer sites are left to bind AXIN-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The AXIN concentration in each sample is interpolated from this standard curve.
Product Categories/Family for AXIN elisa kit	Neurobiology

NCBI AND UNIPROT INFORMATION

NCBI GI #	167865350
NCBI GeneID	6032253
Molecular Weight	82,362 Da
NCBI Official Full Name	axis inhibition protein
NCBI Official Symbol	CpipJ_CPIJ001221
NCBI Protein Information	axis inhibition protein
UniProt Protein Name	Axis inhibition protein
UniProt Entry Name	B0W2B8_CULQU

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
