

Guinea Pig Anti-Ganglioside T1b Antibody ELISA Kit | GT1b elisa kit

Guinea pig Anti-Ganglioside T1b Antibody ELISA Kit

CATALOG #
AAA96363

REACTIVITY
Guinea Pig

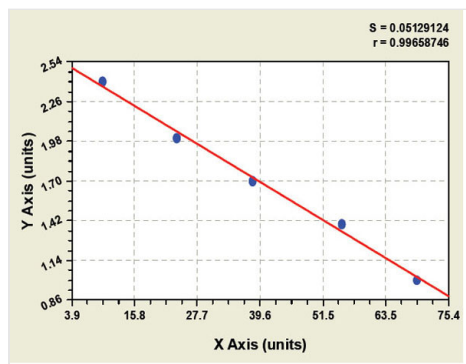

PRODUCT SYNONYMS

Anti-Ganglioside T1b Antibody; Guinea pig Anti-Ganglioside T1b Antibody ELISA Kit; GT1b elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Guinea Pig
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	10-250ng/mL
Sensitivity	1.0ng/mL
Intended Uses	This GT1b ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Guinea pig GT1b. This ELISA kit for research use only, not for therapeutic applications
!Intended Uses	This GT1b ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Guinea pig GT1b. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for GT1b elisa kit	Principle of the Assay: GT1b ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-GT1b antibody and an GT1b-HRP conjugate. The assay sample and buffer are incubated together with GT1b-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GT1b concentration since GT1b from samples and GT1b-HRP conjugate compete for the anti-GT1b antibody binding site. Since the number of sites is limited, as more sites are occupied by GT1b from the sample, fewer sites are left to bind GT1b-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GT1b concentration in each sample is interpolated from this standard curve.
Product Categories/Family for GT1b elisa kit	Cell Biology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
