

## Rabbit Mannose Phosphate Isomerase ELISA Kit | MPI elisa kit

Rabbit Mannose Phosphate Isomerase ELISA Kit

CATALOG #  
**AAA96647**

REACTIVITY  
**Rabbit**

### PRODUCT SYNONYMS

Mannose Phosphate Isomerase; Rabbit Mannose Phosphate Isomerase ELISA Kit; MPI elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                       |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rabbit                                                                                                                                                                                |
| Samples                 | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate                                                                                                            |
| Sensitivity             | 1.0 ng/mL.                                                                                                                                                                            |
| Intended Uses           | This MPI ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rabbit MPI. This ELISA kit for research use only, not for therapeutic applications! |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                                                                                                                                   |

### NCBI AND UNIPROT INFORMATION

|                                  |                                                                              |
|----------------------------------|------------------------------------------------------------------------------|
| NCBI GI #                        | 7159280                                                                      |
| NCBI GeneID                      | 4351                                                                         |
| Molecular Weight                 | 39,834 Da                                                                    |
| NCBI Official Full Name          | mannose phosphate isomerase                                                  |
| NCBI Official Synonym Full Names | mannose phosphate isomerase                                                  |
| NCBI Official Symbol             | MPI                                                                          |
| NCBI Official Synonym Symbols    | PMI; PMI1; CDG1B                                                             |
| NCBI Protein Information         | mannose-6-phosphate isomerase; phosphohexomutase; phosphomannose isomerase 1 |
| UniProt Protein Name             | Mannose-6-phosphate isomerase                                                |

|                            |           |
|----------------------------|-----------|
| UniProt Gene Name          | MPI       |
| UniProt Synonym Gene Names | PMI1; PMI |
| UniProt Entry Name         | MPI_HUMAN |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
