

## Porcine Phospho protein kinase C ELISA Kit | P-PKC elisa kit

Porcine Phospho protein kinase C ELISA Kit

CATALOG #  
**AAA96665**

REACTIVITY  
**Porcine**

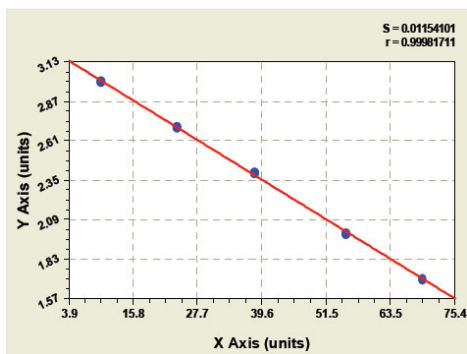

### PRODUCT SYNONYMS

Phospho protein kinase C; Porcine Phospho protein kinase C ELISA Kit; P-PKC elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                            |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Porcine                                                                                                                                                                                    |
| Samples                 | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate                                                                                                                 |
| Sensitivity             | 1.0 pg/mL.                                                                                                                                                                                 |
| Intended Uses           | This P-PKC ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Porcine P-PKC. This ELISA kit for research use only, not for therapeutic applications! |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                                                                                                                                        |
