

## Mouse Epithelial Cell Adhesion Molecule ELISA Kit | EPCAM elisa kit

Mouse Epithelial Cell Adhesion Molecule ELISA Kit

CATALOG #  
**AAA97649**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Epithelial Cell Adhesion Molecule; Mouse Epithelial Cell Adhesion Molecule ELISA Kit; EPCAM/17-1A/CD326/GA733-2/gp40/KS1/4/M4S1/TACSTD1/TROP1/17-1A/323/A3/ACSTD1/antigen identified by monoclonal AUA1/CD326 antigen/Cell surface glycoprotein Trop-1/chromosome 4; surface marker (35kD glycoprotein)/DIAR5/EGP/EGP-2/EGP314/EGP40/EpCAM/epithelial cell adhesion molecule/Epithelial cell surface antigen/Epithelial glycoprotein/Epithelial glycoprotein 314/ESA/GA733-2EGP34/hEGP314/HNPCC8/KS 1/4 antigen/KS1/4/KSAHEA125/M1S2/M4S1Ly74/Major gastrointestinal tumor-associated protein GA733-2/MIC18MH99/MOC31/TACST-1/TACSTD1/TROP1CD326/Tumor-associated calcium signal transducer 1CO-17A; EPCAM elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                        |
| Sequence Length         | 314                                                                                                                                                          |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 78.125-5000pg/ml                                                                                                                                             |
| Sensitivity             | 46.875pg/ml                                                                                                                                                  |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

Standard Curve (Sample)

#### Typical Data & Standard Curve

Results of a typical standard run of a Mouse EPCAM ELISA Kit are shown below. This standard curve was generated at our lab for demonstration purpose only. Each user should obtain their own standard curve as per experiment. (N/A-not applicable)

| X | pg/ml | 0     | 78    | 156   | 312.5 | 625   | 1250  | 2500  | 5000  |
|---|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| Y | OD450 | 0.006 | 0.218 | 0.407 | 0.793 | 1.365 | 1.703 | 1.966 | 2.373 |

### ADDITIONAL INFORMATION

#### Related Product Information for EPCAM elisa kit

**Principle of the Assay**||This kit was based on sandwich enzyme-linked immune-sorbent assay technology. anti-Mouse EPCAM antibody was pre-coated onto 96-well plates. And the biotin conjugated anti-Mouse EPCAM antibody was used as detection antibodies. The standards, test samples and biotin conjugated detection antibody were added to the wells subsequently, and wash with wash buffer. HRP-Streptavidin was added and unbound conjugates were washed away with wash buffer. TMB substrates were used to visualize HRP enzymatic reaction. TMB was catalyzed by HRP to produce a blue color product that changed into yellow after adding acidic stop solution. The density of yellow is proportional to the Mouse EPCAM amount of sample captured in plate. Read the O.D. absorbance at 450nm in a microplate reader, and then the concentration of Mouse EPCAM can be calculated.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
