

## Mouse Carboxylesterase 5A ELISA Kit | Ces5a elisa kit

Mouse Carboxylesterase 5A ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA98063</b> | REACTIVITY<br><b>Mouse</b> |
|------------------------------|----------------------------|

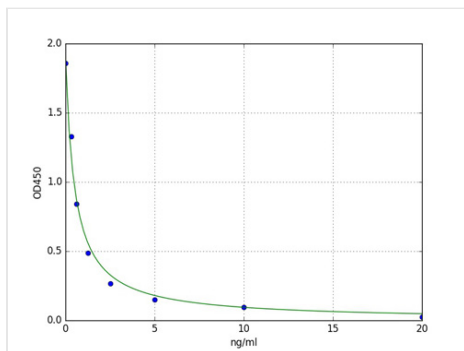

### PRODUCT SYNONYMS

Carboxylesterase 5A; Mouse Carboxylesterase 5A ELISA Kit; Ces5a/CES5A/CES7/Cauxin/Carboxylesterase-like urinary excreted protein homolog; Ces5a elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                        |
| Sequence Length         | 575                                                                                                                                                          |
| Assay Type              | Competitive ELISA, Coated with Antigen                                                                                                                       |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 0.313-20ng/ml                                                                                                                                                |
| Sensitivity             | 0.188ng/ml                                                                                                                                                   |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

### NCBI AND UNIPROT INFORMATION

|                                  |                                |
|----------------------------------|--------------------------------|
| NCBI GI #                        | <a href="#">58865680</a>       |
| NCBI GeneID                      | <a href="#">307660</a>         |
| NCBI Accession #                 | <a href="#">NP_001012056.1</a> |
| NCBI GenBank Nucleotide #        | <a href="#">NM_001012056.1</a> |
| Molecular Weight                 | 64,417 Da                      |
| NCBI Official Full Name          | carboxylesterase 5A            |
| NCBI Official Synonym Full Names | carboxylesterase 5A            |

|                               |                     |
|-------------------------------|---------------------|
| NCBI Official Symbol          | Ces5a               |
| NCBI Official Synonym Symbols | Ces5; Ces7          |
| NCBI Protein Information      | carboxylesterase 5A |
| UniProt Protein Name          | Carboxylesterase 5A |
| UniProt Gene Name             | <b>Ces5a</b>        |
| UniProt Synonym Gene Names    | Ces7; Cauxin        |
| UniProt Entry Name            | EST5A_RAT           |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
