

## Rat 14-3-3 protein zeta/delta ELISA Kit | Ywhaz elisa kit

Rat 14-3-3 protein zeta/delta ELISA Kit

|                              |                          |
|------------------------------|--------------------------|
| CATALOG #<br><b>AAA98418</b> | REACTIVITY<br><b>Rat</b> |
|------------------------------|--------------------------|

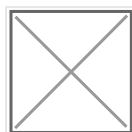

### PRODUCT SYNONYMS

14-3-3 protein zeta/delta; Rat 14-3-3 protein zeta/delta ELISA Kit; Ywhaz/Msfs1/Mitochondrial import stimulation factor S1 subunit/Protein kinase C inhibitor protein 1/KCIP-1/14-3-3 protein zeta/delta; Ywhaz elisa kit

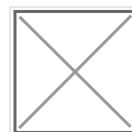

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                          |
| Sequence Length         | 245                                                                                                                                                          |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 31.25-2000pg/ml                                                                                                                                              |
| Sensitivity             | 18.75pg/ml                                                                                                                                                   |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

| Related Product Information for Ywhaz elisa kit | Principle of the Assay  This kit was based on sandwich enzyme-linked immune-sorbent assay technology. anti-Rat Ywhaz antibody was pre-coated onto 96-well plates. And the biotin conjugated anti-Rat Ywhaz antibody was used as detection antibodies. The standards, test samples and biotin conjugated detection antibody were added to the wells subsequently, and wash with wash buffer. HRP-Streptavidin was added and unbound conjugates were washed away with wash buffer. TMB substrates were used to visualize HRP enzymatic reaction. TMB was catalyzed by HRP to produce a blue color product that changed into yellow after adding acidic stop solution. The density of yellow is proportional to the Rat Ywhaz amount of sample captured in plate. Read the O.D. absorbance at 450nm in a microplate reader, and then the concentration of Rat Ywhaz can be calculated. |
