

## Human RalBP1-associated Eps domain-containing protein 2 ELISA Kit | REPS2 elisa kit

Human RalBP1-associated Eps domain-containing protein 2 ELISA Kit

CATALOG #  
**AAA99373**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

RalBP1-associated Eps domain-containing protein 2; Human RalBP1-associated Eps domain-containing protein 2 ELISA Kit; REPS2/Partner of RalBP1/RalBP1-interacting protein 2/REPS2/POB1; REPS2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                        |
| Sequence Length         | 659                                                                                                                                                          |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 0.313-20ng/ml                                                                                                                                                |
| Sensitivity             | 0.188ng/ml                                                                                                                                                   |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

| NCBI GenBank Nucleotide #        | <a href="#">NM_001080975.1</a>                              |
| Molecular Weight                 | 71,405 Da                                                   |
| NCBI Official Full Name          | ralBP1-associated Eps domain-containing protein 2 isoform 2 |
| NCBI Official Synonym Full Names | RALBP1 associated Eps domain containing 2                   |
| NCBI Official Symbol             | REPS2                                                       |
| NCBI Official Synonym Symbols    | POB1                                                        |
| NCBI Protein Information         | ralBP1-associated Eps domain-containing protein 2           |
| UniProt Protein Name             | RalBP1-associated Eps domain-containing protein 2           |

|                            |             |
|----------------------------|-------------|
| UniProt Gene Name          | REPS2       |
| UniProt Synonym Gene Names | POB1        |
| UniProt Entry Name         | REPS2_HUMAN |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
